# ABOUT STRATTON

From humble beginnings in 1998 as an entrepreneurial car finance business, stratton has since established itself as a leading equipment and asset finance broker in Australia with offices in most capital cities and a national network of franchises.

We take pride in offering SME's effective financial solutions, helping fund business equipment, clean energy systems, commercial and heavy vehicles, vendor finance programs, laptops and servers, and even enterprise IT solutions.

You can guarantee your call will always be answered by someone who can deliver what you need, when you need it.

Our finance consultants and account managers are specialists in tailoring a financial solution that's right for your business, taking into account risk, business structure, tax and cashflow requirements. It's all part of our **simply smarter finance** philosophy.

## WHAT WE OFFER

- 🔥 Full range of financial products and services
- 🔥 Market leading rates
- 🔥 Vendor finance facilities
- 🔥 Joint venture and channel partner relationships
- 🔥 Low Doc asset finance solutions
- 🔥 Vehicle buying service - New and used
- 🔥 Loans for credit challenged applicants

## NO FINANCIALS? NO PROBLEM

We understand the complex nature of running a business and can help you get No Financials loans on most assets and equipment - usually at rates better than a similar product offered by the banks.

## GETTING STARTED

For more information, or to discuss your equipment finance needs, contact stratton:

**1300 738 290** or visit  
[stratton.com.au/Commercial](http://stratton.com.au/Commercial)

# CLEAN ENERGY FINANCE

**stratton** can provide **NO DEPOSIT, CLEAN ENERGY FUNDING** for commercial, residential, industrial and utility-scale applications.

We offer a range of flexible competitive solutions with loan terms up to 7 years to help spread the costs of acquiring new energy equipment across the potential energy savings.

For smaller projects under 100kW, funding is provided via a "Chattel Mortgage". The Chattel Mortgage type of funding is also suited to the installation of Solar Water, Small Generation Units and Solar PV Systems that are eligible for Small-scale Technology Certificates (STCs).

These certificates are often used to offset the price of your system. Eligible businesses can also claim a GST input tax credit from your energy asset acquisition.

For larger projects above 100kW, we can offer both Chattel Mortgage and Rental (Operating Lease).

Our Clean Energy Division can fund more than just PV panels. We can fund a range of sustainable and energy efficient technologies including:

- 🔦 Solar Photovoltaic (PV)
- 🔦 Metering & Metering Infrastructure
- 🔦 Co-generation & Tri-generation
- 🔦 Gas Turbines
- 🔦 Chillers & Boilers
- 🔦 Lighting Technologies
- 🔦 Building Management Systems
- 🔦 Energy Efficient Equipment

For more information, or to discuss your clean energy equipment finance needs, call us on **1300 738 290** or visit **[stratton.com.au/Commercial](http://stratton.com.au/Commercial)**.

# IT & TECHNOLOGY FINANCE

**stratton** has a national team of experienced finance professionals who can assist with any technology asset and software funding for SME, Corporate or Enterprise clients.

stratton can also include most associated soft costs including professional services and maintenance, installation costs and software.

Unlike many other financiers, we offer a full range of IT and Technology finance solutions including Commercial Hire Purchase with loan amounts as low as \$2,000.

- 🔌 Laptops & Servers
- 🔌 100% of Licensed Software
- 🔌 Power Management/UPS
- 🔌 CCTV & IP Security
- 🔌 Retail & Point of Sale Equipment
- 🔌 Unified Communications including Telephony
- 🔌 Wireless Technologies including Radio Communications & GPS
- 🔌 Energy Efficiency Solutions (LED and induction lighting, sustainable energy solutions, commercial power generators)
- 🔌 Office Equipment

# VEHICLE & HEAVY TRANSPORT

**stratton** provides a full range of funding solutions for the transport industry. From a single work vehicle or an entire fleet, we have the experience and industry know-how to help with any enquiry.

We can finance both **NEW** and **USED** vehicles for business or personal use and can usually have you approved within 24 hours with our **NO FINANCIALS PRODUCT**.

Enjoy low rates and fast approval for the following:

- 🔗 New & Used Vehicles
- 🔗 Private Sales
- 🔗 Motor Dealership Sales
- 🔗 Auction House Sales
- 🔗 Single Vehicle up to Fleet
- 🔗 Trailer & Transporters
- 🔗 Courier Vans & Trucks
- 🔗 Older Trucks & Trailers
- 🔗 Luxury & Passenger Vehicles
- 🔗 Loans for Credit Challenged Applicants

## 3 EASY STEPS

1. OUR CONSULTANT WILL ASSIST YOU WITH YOUR ENQUIRY
2. YOU GET APPROVED AND SIGN THE DOCUMENTS
3. VENDOR GETS PAID AND YOU'RE SET TO GO

# EQUIPMENT FINANCE

To ensure your business's success it's important to have the right equipment on board. Old equipment can be costly to run and cash-flow can really take a hit in the event of equipment down time.

We understand time is of the essence and our years of equipment finance experience enables us to look at the bigger picture taking into account risk, business structure, tax and cash-flow requirements.

Whether you want to rent, lease, buy or hire, **stratton** has a financial solution to suit your business needs.
